OBJECTIVE

Motivated B.Tech Artificial Intelligence student with a strong interest in software development and emerging technologies. Seeking an opportunity to apply skills in **AI/ML** and **Application Development** while continuously learning, building impactful solutions, and contributing effectively to a forward-thinking organization.

ACADEMIC QUALIFICATION

- **G.H.Raisoni College of Engineering and Management Nagpur B.Tech (AI) : 8.3 CGPA Year:2026**
- **New English Junior College Nagpur Class 12 (HSC) : 70.67% Year:2022**
- **Ramesh Chandak English School Class 10 (SSC) : 86.80% Year:2020**

Technical Skills

- **Languages:** Python, Dart, Java
- **FrameWorks:** Flutter, Flask, Django
- **Databases:** MySQL, SQLite, JSON, PostgreSQL
- **AI/ML:** Scikit-learn, OpenCV, NLP, Pandas
- **Tools:** Git, VS Code, Supabase, Android Studio, Postman

PROJECTS

-  **Hyreso App**
A modern job-hiring and recruitment application featuring job listings, smart filters, recruiter dashboards, candidate profiles, and integrated AI interview assistance for seamless hiring workflows.
Tech Stack : Flutter, Dart, Supabase, REST APIs, Firebase (Notifications), AI/ML APIs
 **Play Store :** https://play.google.com/store/apps/details?id=com.hyreso.app&hl=en_IN
-  **Crop Bazar**
A comprehensive agritech marketplace application connecting farmers, traders, and buyers. The platform enables crop trading, real-time mandi prices, agri-inputs marketplace, logistics support, and digital supply-chain management for agriculture.
Tech Stack : Flutter, Dart, REST APIs, Cloud Backend, Payment Gateway Integration, Maps & Location APIs
 **Play Store :** https://play.google.com/store/apps/details?id=com.thecropbazar.market&hl=en_IN
-  **AI-Powered Sign Language Generation System**
A Flask-based accessibility-focused web application that converts real-time speech into sign language skeleton poses. The system uses **NLP** to extract glosses, a trained **gloss-to-pose machine learning model** to generate keypoints, and visualizes animated skeletons for inclusive communication.
Tech Stack : Flask, Python, PyTorch, MediaPipe, NLP, HTML, CSS, JavaScript, WebSockets, MySql
 **GitHub :** https://github.com/deva41103/Beyond_words.git

INTERNSHIPS AND EXPERIENCE

- **Full Stack Developer – Dataventics Software Solutions (6 months)**
Gained hands on experience of **FLUTTER** with complete production ready **App Development**.
- **Machine Learning Intern – Prodigy Infotech (1 months)**
Gained hands-on experience with **ML models** and small-scale projects.

ACHIEVEMENTS

- Led backend development using Flask & SQL, showing **strong logical and analytical thinking**.
- Winner of G.H. Raisoni Hackathon for an AI Sign Language Generator, proving **critical problem-solving ability**.
- **HackerRank Python 4★** – demonstrates **excellent logical reasoning and algorithmic skills**.
- **HackerRank Software Engineer Certified** – validated **structured and logical problem-solving**.
- **Kaggle ML Certified** – strengthened **data-driven thinking and model logic**.
- **Django Web Development (CPD Certified)** – reinforced **engineering logic and systematic learning**.
